

Eurobase 226/227/272/286A

The EUROBASE is an elegant base specially designed for decorative listellos, offering the possibility of incorporating ceramic or mosaic inside. Its interior height extends up to a maximum of **8 mm and 10 mm thick**, depending on its width (see diagrams in images). This versatile component offers customers the opportunity to customize their listellos, thus ensuring the exclusivity and uniqueness of their final product.

ATTENTION: Mosaic not included.

MATERIAL CHARACTERISTICS

Aluminium stands out in interior decoration for its versatility and lightness, allowing for elegant and durable designs. Its resistance to corrosion makes it ideal for humid environments, while the variety of finishes offers customised options to suit any decorative style. In short, aluminium fuses sophistication and functionality in interior decoration.
